Notes:

Principles or Truths to remember:

1. To have more hope and peace, we must seek a better understanding of the character and story of God.
2. God is on the throne and he is actively ruling according to his will.
3. God's judgement is retributive and restorative. It is always just, measured, and appropriate.
4. We are part of God's redemptive work, but only God redeems people.
